Edit or end an ongoing meeting

End now - appropriate when your meeting ends early. This will shorten the meeting to the same minute it got ended and make the room free for others to book.

Extend - appropriate when your meeting runs for longer than originally scheduled. This will prompt the option to extend the meeting with either 15, 30, 45 or 60 minutes.
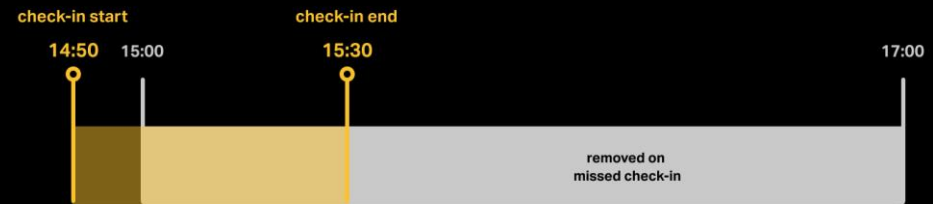

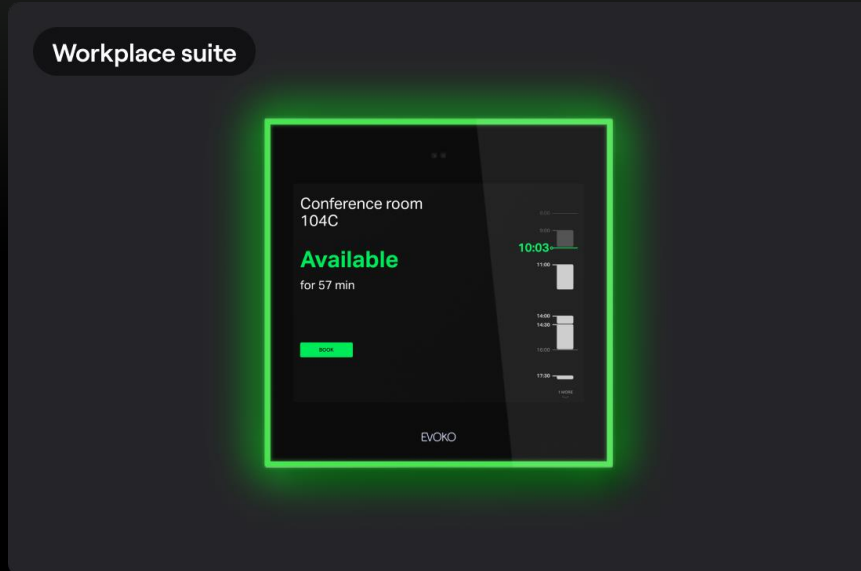

evoko
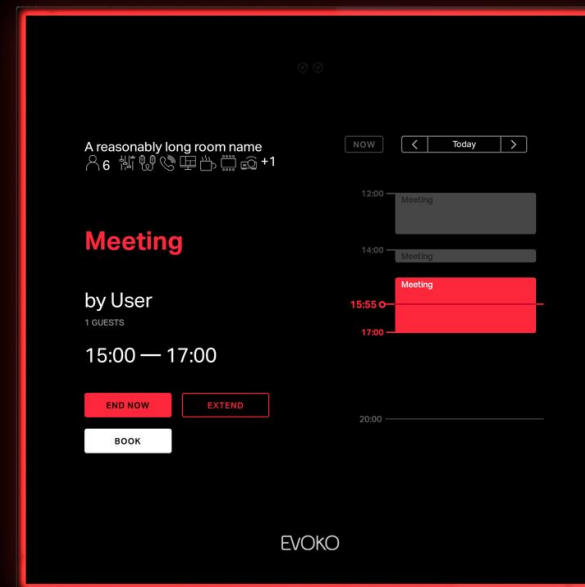

Check-in to meetings
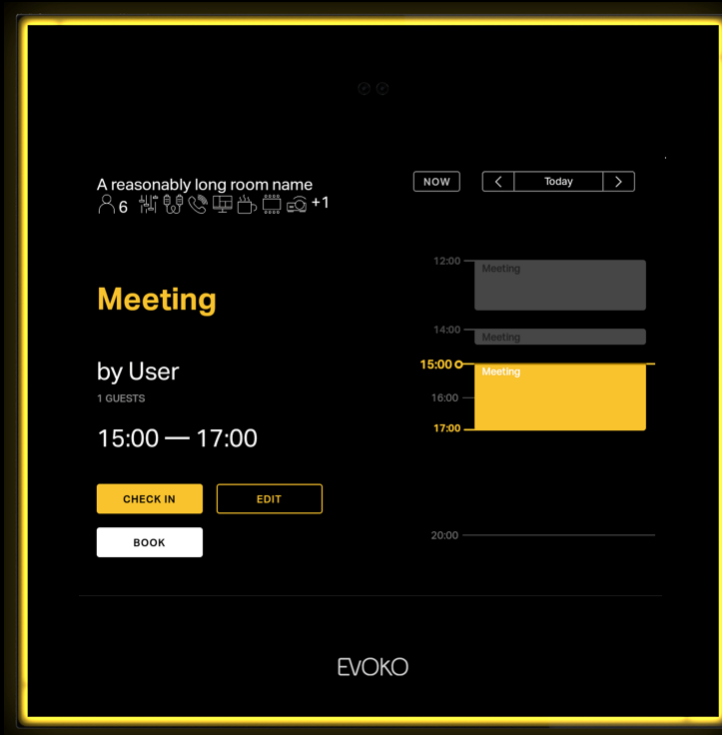

Check-in is a great way to prevent "ghost meetings".

When enabled, check-in will be available on the Naso starting 10 minutes before the meeting starts until 30 minutes after.

evoko

Two different types of meeting room displays

Naso room manager

Naso is a central part of our cloud based room booking system, that offers an extensive range of functions
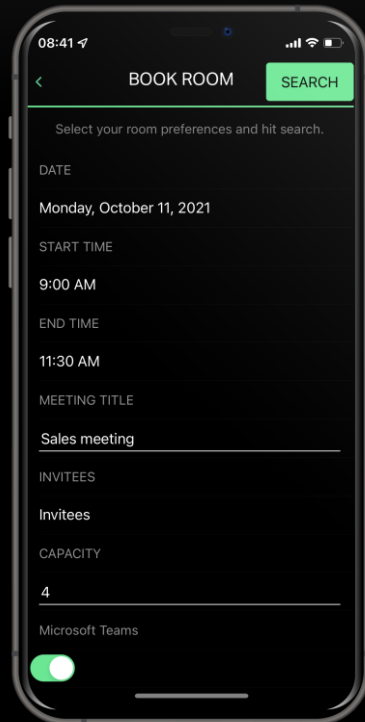

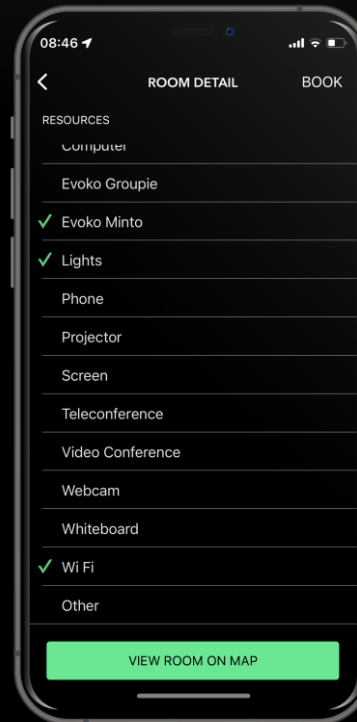

Liso room manager

The Liso is the heart of our full-fledged self hosted room booking solution that brings all the features you need.
